NOTICE OF WITHDRAWAL

The Department of Ecology withdraws the following CR-101 filing:

- WSR 09-05-028 February 10, 2009

In February 2009, Ecology started a combined rule-making effort to amend the Model Toxics Control Act (MTCA) and the cleanup portions of the Sediment Management Standards (SMS). The agency has decided to divide this rule-making into separate processes. In December 2010, we decided to put the MTCA rule-making on hold. We are continuing work on the SMS. To clarify this, immediately after filing this notice of withdrawal, Ecology is filing a CR-101 for a rule-making to update the cleanup portions of the Sediment Management Standards.

As a separate but related and concurrent process, Ecology is beginning rule-making focused on implementation-related updates to the Surface Water Quality Standards.

James J. Pendowski, Manager  
Toxics Cleanup Program  
Department of Ecology
